

Do I have to participate?

Your decision to answer or to refuse to answer will NOT impact your ability to receive care. In many cases, this information will help us determine if you are eligible for any additional benefits, programs, or services.

How long does it take?

The average time to talk through these questions is between 5 - 10 minutes, and will occur during your appointment time. Our goal is to go over these questions on a yearly basis, in order to keep track of any changes and continue to provide the best care possible.

Heritage Medical

700 Heritage Drive
Suite 701
Pottstown, PA 19464

Learn more about:

PRAPARE

Protocol for Responding to and Assessing Patients' Assets, Risks, and Experiences

What is PRAPARE?

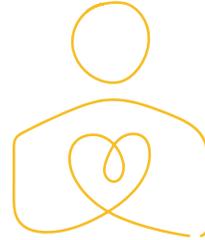

PRAPARE is a tool to help health centers collect data on Social Determinants of Health (SDoH). SDH are the conditions in which we live, work, and play, and these conditions can impact health outcomes. Examples of SDH are housing, employment, and transportation. Collecting this data will help health centers, like CHDC, to document the issues that our patients are facing and help us better meet your needs.

Why am I being asked these questions?

We use this screening tool to better understand you as a person and any needs you may have. We want to make sure that we provide the best care and services possible to meet your needs. This information will help us determine if we need to add new services or programs to better care for our patients.

creating a care plan

that fits your
life.

We are having these conversations with patients so that we can understand better what might be affecting your health and well-being. This information will help us partner with you to *create a care plan that fits your life.*

This information not only helps us understand each of our patients, but gives us the tools to be a better advocate for our community.

How does this impact my care?

This information will be kept private and secure. Only clinic staff will have access to this information. The PRAPARE questions will only take a couple of minutes, and will be done during your appointment. The information that we gather will be used to determine what needs you have, and how we can best connect you with resources.

Why is CHDC using PRAPARE?

As a health center focused on providing comprehensive care, CHDC is using PRAPARE to better serve patients and their families. Responses to PRAPARE questions can help staff to connect patients to resources or referrals that they may need, such as free transportation, PENNIE, Medicare enrollment, and more.
