

CHDC Offers Integrated Appointments!

What is an Integrated Visit?

An integrated visit allows the patient to have more than one provider service encounter in one day.

Why Integrate?

An integrated visit **saves you time** and maximizes your health!

- ➔ **Step 1:** In the left column, find the primary service you are coming in for on appointment day.
- ➔ **Step 2:** Go across the row to find our mascot, DASH  to see integrated services available on the same day as your primary service appointment.
- ➔ **Step 3:** Choice of one (1) additional integrated service with blue block.

Example: You are coming in for a Vision Appointment so you can **INTEGRATE** a Dental **AND** Behavioral Health visit, and **choose** to also have a medical, ob/gyn, physical therapy, **OR** podiatry. *Note: Subject to availability in schedule.*
